The needs and wants of any community wax and wane as a community grows, ages and matures. There is a normal cycle of renewal in most neighbourhoods. The North Glenora Community League needs to be cognizant of who is accessing programs and what programs are required to provide maximum benefit to the residents of North Glenora. There is a growing trend, as our population is so mobile, for our residents to access programs outside of our local neighbourhood. There is also a trend of outside groups inquiring about renting our hall to put on programs that our residents would be able to access. These can be dealt with on a case by case basis and Hall Bookings will keep Programs and the Executive Board informed of these requests. We have to use good judgement to keep a balance between the real benefit to our residents versus revenue from hall rentals and increased activity in our facility.
